

LIGHTEX

Light. Create. Impress.

Catalogue 2026

In the catalog LIGHTEX 2026 you will find over 400 new products, as well as 1500 selected solutions and bestsellers from our product range, presented in the most informative and visually realistic way possible - because we know that the true magic of light cannot be captured on a page, but must be experienced.

Our goal is to offer you innovative, reliable and affordable solutions for interior, architectural, industrial and garden lighting - suitable for any space and style. We believe that the variety of models with classic and modern designs will inspire you and you will find the right solution for every project.

For 34 years we have been moving forward together, and your trust inspires us to build on what we have achieved and offer you ever better solutions. Over the past year, we have carried out dozens of innovative and large-scale projects, established new partnerships, and entered new markets – accomplishments that motivate us to continue developing and growing together with you.

Thank you for being part of Lightex's journey - towards more light, comfort and new opportunities.

В каталог LIGHTEX 2026 ще откриете над 400 нови продукта, както и 1500 подбрани решения и бестселъри от нашата номенклатура, представени по възможно най-информативен и визуално реалистичен начин, защото знаем, че истинската магия на светлината не може да бъде уловена на страница, а трябва да бъде преживяна.

Нашата цел е да Ви предложим иновативни, надеждни и достъпни решения за интериорно, архитектурно, индустриално и градинско осветление, подходящи за всяко пространство и стил. Вярваме, че разнообразието от модели с класически и модерен дизайн ще Ви вдъхнови и ще откриете правилното решение за всеки проект.

Вече 34 години вървим заедно напред, а доверието Ви ни вдъхновява да надграждаме постигнатото и да Ви предлагаме все по-добри решения. През изминалата година реализирахме десетки иновативни и мащабни проекти, създадохме нови партньорства и стъпихме на нови пазари – постижения, които ни мотивират да се развиваме и израстваме заедно с Вас.

Благодарим ви, че сте част от пътя на Lightex – към повече светлина, комфорт и нови възможности.

CARLOS

В колекцията ни LED полилеи ще откриете богато разнообразие от класически и модерни дизайни – кристални композиции с изящен блясък, изчистени геометрични линии, флорални мотиви, елегантни рингове и динамични форми. Новата ни серия Caterina с различен брой и размери рингове Ви дава свободата да подберете най-подходящия акцент за всяко пространство, а кристалните ни полилеи от рязано стъкло запазват своята ослепителна сила да пречупват светлината и да озаряват интериора с усещане за лукс.

Съвременните технологии превръщат класическото излъчване на полилеите в практично и достъпно решение, като съчетават естетика, надеждност и удобство. Голяма част от моделите се управляват с дистанционно, а някои предлагат и музикална функция.

LED полилеите ни са създадени, за да внесат светлина, стил и индивидуалност във Вашия дом и да превърнат ресторанта, кафенето или лобито на хотела в любимо място за срещи и разговори.

За всички, които ценят класическата естетика и уют, създадохме богата колекция от над 100 модела полилеи, пендели и аплици с цокъл за лампа – съвършен баланс на добре познатите технологии с атмосфера и емоция. Сега имате свободата да изберете подходящата светлина и форма на лампата, с които да добавите характер и блясък във Вашия дом, хотел или ресторант и да подчертаете Вашата индивидуалност.

Можете да се потопите в морето от стилове и цветове – през модерните индустриални дизайни, до класическите полилеи и сериите свежи пендели. Добавихме и още бохо стил с новата серия Francine.

Добавете комфорт в ежедневието си с LED плафони, които съчетават модерна визия и интелигентни решения. Много от тях са с дистанционно управление или ССТ функция, за да настроите светлината според настроението и момента. Изберете сред десетки модели в различни цветове и размери, много от които са част от серии за лесно комбиниране. В колекцията ще откриете емблематични дизайни като Star, Nestor и Turn, както новите серии Sleng, California, Olaf и още над 20 нови модела плафони с изчистени линии или декоративни елементи, които подчертават стила и характера на Вашия интериор. Новият ни музикален LED плафон е идеалният акцент за повече настроение в хола или в детската стая.

В колекцията ни спот осветление ще откриете впечатляващо разнообразие от серии с цокъл E27, E14 и GU10 – от изчистени и функционални решения до модели с артистичен характер. Предлагаме аплици, спотове, пенели и полилеи, изработени от метал, дърво, стъкло, алуминий и текстил. Вдъхновяващи комбинации като DALIA и ADRIANA съчетават метал и дърво за естествено усещане и топлина, докато BERTA, ELEA и SILVIA впечатляват с ажурни детайли и игра на светлината. За още по-фокусирано насочване може да изберете ISOLA, OSKAR и PABLO – със стилни плътни форми, които придават акцент и дълбочина на интериора.

Моделите се предлагат в различни размери и дизайни и богато разнообразие от цветове – бяло, черно, сиво, кафяво и пъстро, за да подходат на всяко пространство. Спотове и аплици са с възможност за насочване на светлината в желаната посока – практично и ефектно решение както за дома, така и за офиса или хотелския интериор. BLANKA и SELIA с техните текстилни абажури внасят уют и нотка винтидж излъчване, което превръща осветлението в част от атмосферата.

Със своето разнообразие от материали, форми и стилове, нашето спот осветление съчетава функционалност и естетика, за да подчертае най-красивите акценти във Вашия интериор и да създаде комфортна, модерна и индивидуална среда.

Специалните ни модели LED плафони с вграден вентилатор се отличават с ефектен дизайн и съчетават светлина, комфорт и свежест в едно решение. Те са идеален избор за дома, офиса или хотела – осигуряват равномерно осветление, циркулация на въздуха и управление чрез дистанционно или мобилно приложение. Моделите предлагат различни мощности и размери, а благодарение на регулируемата цветна температура и димиране се адаптират към всяко настроение и интериор.

В колекцията ни лампиони ще откриете комбинация от елегантност, динамика и функционалност. Сериите ни изчистени, класически лампиони се предлагат в разнообразие от цветове и варианти с допълнително насочено осветление — идеални за любимото четиво или за творчески моменти у дома. Имаме решения и за градинската Ви маса — елегантният, но устойчив модел KIWI в матирани цветове е перфектен избор.

Лампионите на Lightex са създадени да внесат не просто комфортна светлина в спокойните вечери, а настроение и удобство за всяко пространство и за всеки момент от деня Ви.

Нашето детско осветление е като приказка, разказана със светлина – полилей PLANE, който полита в небето, аплик COCO, който чурулика до леглото, и усмихнатата лампа PANDA, винаги готова за игра. Весели бухалчета, рибки и пчелички превръщат всяка стая в шарен свят на въображението. Най-новите ни силиконови лампи LAZY PANDA, CAPYBARA, LAZY CHICKEN могат да бъдат поставяни навсякъде – светлинка за приключения през деня и за уют преди сън. А лампите ни за контакт ще пазят спокойствието през нощта за сладки и щастливи детски сънища.

LIGHTEX
Light. Create. Impress.

Колекцията LED луни на Lightex предлага модерно и функционално осветление, съчетаващо стил, енергийна ефективност и гъвкавост. Моделите включват различни форми и цветове, подходящи за скрит и открит монтаж, както и за вграждане. Луните са с разнообразие от мощности – за оптимално решение според пространството и нуждите. Част от моделите предлагат индиректна светлина, регулиране на яркостта и избор на цветна температура (CCT). С LED луните Lightex можете да създадете както основно осветление, така и акценти, които подчертават атмосферата на интериора. Компактният дизайн, съвременните покрития и възможностите за регулиране ги правят подходящи за всяко пространство – от дневни и кухни до коридори, стълбища и други функционални зони.

SPOTLIGHTS AND TRACK SYSTEMS

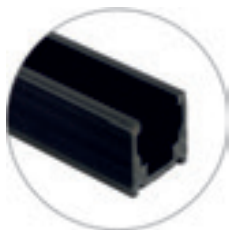

Съвременното осветление трябва да бъде не само ефективно, но и гъвкаво, за да отговаря на динамиката на работната среда. Нашите иновативни системи KATANA и IMAGINARIUM са нисковолтови LED решения (48V), които предлагат безопасност, модулност и богат избор от конфигурации.

KATANA е елегантна трак система с възможности за вграден, повърхностен или окачен монтаж и повече от 30 модела осветителни тела – от спотове до линейни и висящи решения.

IMAGINARIUM впечатлява със своя плосък кабел в 7 цвята, който служи едновременно за проводник и монтажна шина, осигурявайки свобода при позиционирането и уникален дизайнерски ефект. Двете системи могат да се комбинират за още повече персонализирани и естетически впечатляващи осветителни решения. Така офис пространствата се превръщат в модерна, комфортна и продуктивна среда за работа.

От осветяването на фасади и градини до индустриални площадки и спортни терени - LED прожекторите Lightex съчетават висока ефективност, надеждност и гъвкавост на приложение. В колекцията ни ще откриете прожектори от серия HERO с варианти в черно и бяло, включително със сензор, както и компактните SLIM, достъпни и в RGB версии с дистанционно управление.

С разнообразие от мощности и висока степен на защита (IP), LED прожекторите ни са създадени да осигурят надеждна светлина във всякакви условия.

Сензорите на Lightex превръщат осветлението в интелигентно решение за повече комфорт, сигурност и икономия. Богатата гама включва модели за вграден и открит монтаж – от инфрачервени (IR) и микровълнови сензори до анти-пет решения, комбинирани варианти за движение и звук, за управление през плотове, LED тела с вграден сензор, фотоклетки и мини сензори за LED ленти. Широката гама позволява избор на оптимално решение за офиси, коридори, складови и производствени помещения, фасади и други пространства, където автоматизацията на осветлението е от съществено значение.

duration time / времетраене: 10 sec - 30 min

installation height: 2.2 - 6m

инсталационна височина: 2.2 - 6m

Motion sensor for hall 360° Сензор за движение за коридор 360° **650AZ0001028**

max 1000W LED IP20

220-240V Ø103x53.5mm

material: PC, color: white

ambient light / околна светлина: < 3 lux - 2000 lux

detection distance / обхват: max 30m

sensor distance / обхват: 360°

duration time / времетраене: 10 sec - 15 min

installation height: 2.2 - 4m

инсталационна височина: 2.2 - 4m

IR Motion sensor recessed **2in1** surface & recessed mounting 360°
IR Сензор за движение за вграждане **2в1** за скрит и открит монтаж 360°
650AZ0001045

max 600W LED IP20 220-240V

ø80x39.6mm/cut ø61.5mm

material: PC

color: white

ambient light / околна светлина: < 3 lux - 2000 lux

detection distance / обхват: max 8m

sensor distance / обхват: 360°

duration time / времетраене: 10 sec - 30 min

installation height: 2.2 - 4m

инсталационна височина: 2.2 - 4m

IR Motion and sound sensor for wall 160°
IR Сензор за движение за вграждане
в стенна конзола 160°
650AZ0001015

max 300W LED IP20
220-240V 80x80x34mm

material: PC

color: white

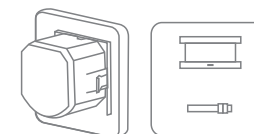

ambient light / околна светлина: < 3 lux - 2000 lux

detection distance / обхват: max 9m

sensor distance / обхват: 160°

duration time / времетраене: 10 sec - 30 min

installation height / инсталационна височина: 1 - 1.8m

IR Motion sensor 180°
IR Сензор за движение 180°
650AZ0001002

max 300W LED IP20

220-240V

72.7x104x82.5x53mm

material: PC

color: white

ambient light / околна светлина: < 3 lux - 2000 lux

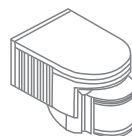

detection distance / обхват: max 12m

sensor distance / обхват: 180°

duration time / времетраене: 10 sec - 7 min

installation height: 1.8 - 2.2m

инсталационна височина: 1.8 - 2.2m

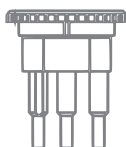

Motion sensor 360° for ceiling lamp
Сензор за движение за плафон
650AZ0003010

max 300W LED
IP20
220-240V
ø72.4x83.1mm
material: PC
color: white

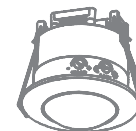

ambient light / околна светлина: < 3 lux - 2000 lux
detection distance / обхват: 6m
sensor distance / обхват: 360°
duration time / времетраене: 10 sec - 15 min
installation height: 2.2 - 4m
инсталационна височина: 2.2 - 4m

Motion sensor recessed 360°
Сензор за движение за вграждане 360°
650AZ0000909

max 300W LED IP20
220-240V
ø74x59mm/cut ø61.5mm
material: ABS
color: white

ambient light / околна светлина: < 10 lux - 2000 lux
detection distance / обхват: max 6m
sensor distance / обхват: 360°
duration time / времетраене: 10 sec - 7 min
installation height: at 2.4m
инсталационна височина: до 2.4m

IR Motion waterproof sensor recessed 360°
IR Сензор за движение за вграждане
влагозащитен 360°
650AZ0000901

max 600W LED IP65
220-240V
ø76x49mm/cut 61.5mm
material: PC
color: white

ambient light / околна светлина: < 3 lux - 2000 lux
detection distance / обхват: max 8m
sensor distance / обхват: 360°
duration time / времетраене: 10 sec - 30 min
installation height: 1.8 - 4m
инсталационна височина: 1.8 - 4m

TOUCH dimmable sensor ON/OFF
TOUCH димиращ сензор ON/OFF
650AZ0001059

12V/48W LED
24V/96W LED
IP20 50x6.3mm
material: PC

Microwave sensor for luminaire 180° - 360°
Микровълнов сензор за осветително тяло 180° - 360°
650AZ0003011

max 300W LED 220-240V IP20
55.8x39.4x25mm
material: PC, color: white
ambient light / околна светлина: < 5 lux - 2000 LUX
sensor distance / обхват: 180° - 360°
duration time / времетраене: 5 sec - 10 min

sensor distance wall mounting: 180° / 5 - 15m
обхват монтаж на стена: 180° / 5 - 15m
installation height wall: 1.5 - 3.5m
височина на монтаж за стена: 1.5 - 3.5m

sensor distance ceiling mounting: 360° / 2m, 5m, 8m
обхват монтаж на таван: 360° / 2m, 5m, 8m
installation height ceiling: 2 - 6m
височина на монтаж за таван: 2 - 6m

HF System: 5.8GHz CW radar, ISM band

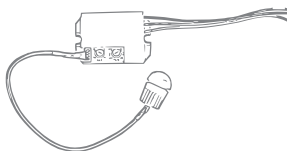

IR Mini motion sensor 120° - 360°
 IR Мини сензор за движение за 120° - 360°
650AZ0001011

max 800W LED 220-240V IP65
 55.4x25.5x36.8mm
 material: PC
 color: white
 ambient light / околна светлина: < 3 lux - 2000 lux
 sensor distance / обхват: 120° - 360°
 duration time / времетраене: 10 sec - 8 min

sensor distance wall mounting: 120° / 8m
 обхват монтаж на стена: 120° / 8m
 installation height wall: 1.8 - 2.5m
 височина на монтаж за стена: 1.8 - 2.5m

sensor distance ceiling mounting: 360° / 6m
 обхват монтаж на таван: 360° / 6m
 installation height ceiling: 2.2 - 4m
 височина на монтаж за таван: 2.2 - 4m

Short distance IR sensor
 IR Сензор за близост
650AZ0001055

max 200W LED IP20
 220-240V 5A
 78.2x35.5x20.6mm
 material: PC
 color: white
 ambient light / околна светлина: < 3 lux - 2000 lux
 detection distance via moving hand: 5 - 6cm
 обхват с движение на ръката: 5 - 6cm

IR Mini motion sensor for LED strip 120° - 360°
 IR Мини сензор за движение за
 LED лента 120° - 360°
650AZ0001050

Input 12V/60W IP20
 50x37x31mm, material: PC
 color: white
 ambient light / околна светлина: < 30 lux
 detection distance / обхват: max 10m
 sensor distance / обхват: 120° - 360°
 duration time / времетраене: 10sec, 120sec, 6min
 installation height: 2.2 - 4m
 инсталационна височина: 2.2 - 4m

Lamp holder E27 with sensor 360°
Фасунга E27 със сензор за движение 360°
650AZ0001310

max 10W LED 220-240V 5A IP20
78.2x35.5x20.6mm
material: PC, color: white
ambient light: < 5 lux - 2000 lux
околна светлина: < 5 lux - 2000 lux
sensor distance / обхват: 360°, max 6m
duration time / времетраене: 10 sec - 5 min
installation height / инсталационна височина: 2 - 3.5m

Фасадните ни осветители комбинират модерна визия и ефектна светлина – от изчистени цилиндрични и квадратни форми до линейни решения с впечатляваща игра на лъчи. Моделите предлагат осветяване в една посока или двупосочно – нагоре и надолу, като част от тях проектират по няколко лъча във всяка посока. Поставени шахматно, тези осветители образуват динамични светлинни фигури. Разнообразието от форми и светлинни ефекти превръща фасадното осветление в дизайнерски елемент, който придава стил и индивидуалност на всяка сграда.

Нашето коледно осветление превръща дома и двора в истинска зимна приказка. Премигващите светлинки от висулките танцуват във въздуха, а светещи завеси окичват прозорците. Гирлянди с топки, метални еленчета, гумени раковини и стъклени шишарки греят от елхата. С LED тапите превръщате всяка бутилка в малка празнична лампичка, а допълнителен чар внасят LED свещичките за масата, които озаряват вечерята с меко сияние.

С влагозащитени въжета с дължини до 11.9m и 8 магични режима – в бяло, синьо или RGB – можете да създадете впечатляващи светлинни ефекти в градината, а малките LED соларни елхички добавят магия и уют без нужда от кабели. Цветната снежинка с размер от 300mm оживява входа или терасата с празнично сияние.

Всеки детайл, всяка лампичка и всяка гирлянда от коледното ни осветление са създадени да блестят и да Ви даряват топлина и вълшебство.

battery operated included / с включени батерии

В нашата колекция LED ленти представяме над 40 модела – на 12V и 24V, в неутрална, топла и студена бяла светлина, CCT, както и във всички цветове и RGB варианти. Всички модели са с висока ефективност, а влагозащитените решения позволяват безпроблемна употреба и на открито. Сред специалните предложения ще откриете LED ленти за коридори и стълбища, както и модели за мебели, които добавят функционалност и стил в интериора. Нашите LED ленти Ви дават свободата да оформите светлината според настроението и пространството – надеждно, икономично и с впечатляващи възможности за дизайн.

ALUMINIUM PROFILES FOR LED STRIPS

Aluminium profile for LED strip for angular surface mounting with matte diffuser, caps and holders

Алуминиев профил за LED лента за открит ъглов монтаж с матиран разсейвател, капачки и държачи

521AL0000350

16mm, 2m, grey

Accessories for 521AL0000350 / Аксесоари за 521AL0000350

521AL0000351

Set of end caps - 2 pcs.

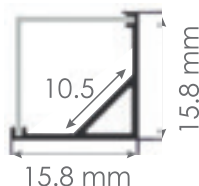

Комплект тапи - 2 бр.

521AL0000352

Set of mounting brackets - 2 pcs.

Комплект монтажни скоби - 2бр.

Aluminium profile for LED strip 8/10mm 90° angular with matt diffuser, caps and holders

Алуминиев профил за LED лента 8/10mm 90° ъглов с матиран разсейвател, капачки и държачи

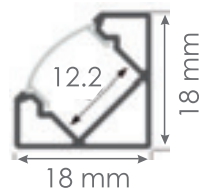

521AL0000360

15.8 x 15.8mm, 2m, grey

Accessories for 521AL0000360 / Аксесоари за 521AL0000360

521AL0000361

Set of end caps - 2 pcs. / Комплект тапи - 2 бр.

Aluminium profile for LED strip 8/12mm 90° angular with matt diffuser, caps and holders

Алуминиев профил за LED лента 8/12mm 90° ъглов с матиран разсейвател, капачки и държачи

521AL0000362

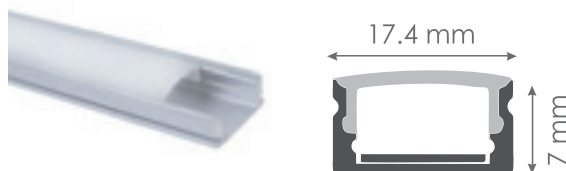

18x18mm, 2m, grey

Accessories for 521AL0000362 / Аксесоари за 521AL0000362

521AL0000363

Set of end caps - 2 pcs. / Комплект тапи - 2 бр.

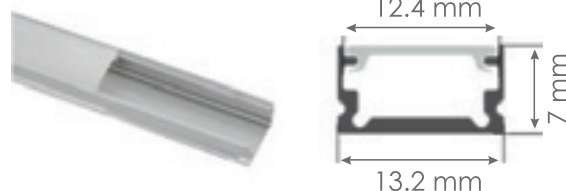

Aluminium profile for LED strip 8/12mm surface with matt diffuser, caps and holders
Алуминиев профил за LED лента 8/12mm с матиран разсейвател, капачки и държачи

521AL0000330

17.4x7mm, 2m, grey

Aluminium profile for LED strip 8/10mm with matt diffuser, caps and holders for surface mounting

Алуминиев профил за LED лента 8/10mm с матиран разсейвател, капачки и държачи за открит монтаж

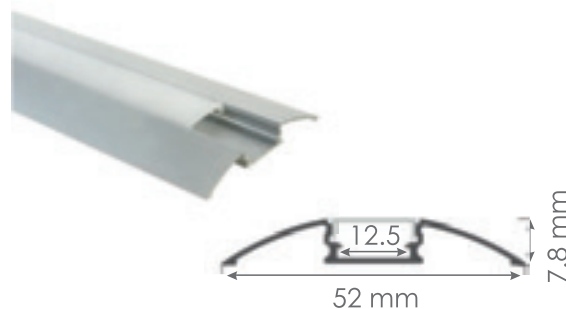

521AL0000380

13.2x7mm, 2 m, grey

Accessories for 521AL0000380 / Аксесоари за 521AL0000380

521AL0000381

Set of end caps - 2 pcs. / Комплект тапи - 2 бр.

Aluminium profile for LED strips 8/10mm with matt diffuser, caps and holders, transitional

Алуминиев профил за LED лента 8/10mm с матиран разсейвател, капачки и държачи, съединителен

521AL0000377

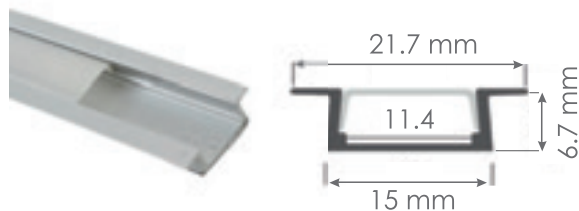

52x7.8mm, 2m, grey

Accessories for 521AL0000377 / Аксесоари за 521AL0000377

521AL0000378

Set of end caps - 2 pcs. / Комплект тапи - 2 бр.

Aluminium profile pr0217 for LED strips 8/10mm recessed, with matt diffuser, caps and holders

Алуминиев профил PR0217 за LED лента 8/10mm за вграждане, с матиран разсейвател, капачки и държачи

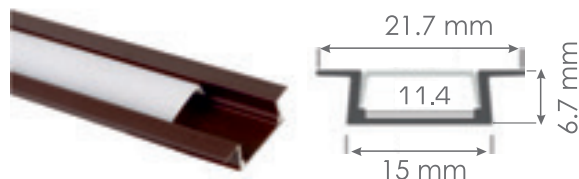

521AL0000374

21.7x6.7mm, 2m, grey

Accessories for 521AL0000374 / Аксесоари за 521AL0000374

CONNECTORS FOR LED STRIPS

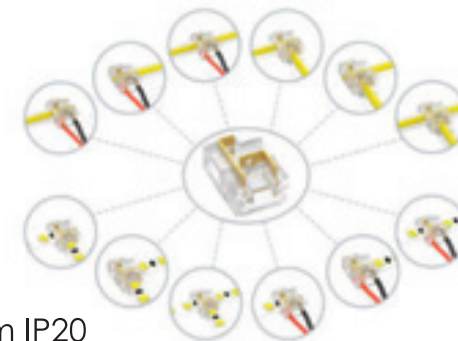

Multifunctional disposable connector 2PIN for single-color LED Strips
SMD and COB 8mm IP20

Мултифункционален съединителен конектор за еднократна употреба 2PIN за едноцветни LED ленти SMD и COB 8mm IP20

521AL0001122 10 pcs. pack / 10 бр. пакет

521AL0001123 2 pcs. pack / 2 бр. пакет

Straight connector disposable 2PIN for LED strip COB 6A 10mm IP20

Прав конектор за еднократна употреба 2PIN за LED лента COB 6A 10mm IP20

521AL0001110 10 pcs. pack / 10 бр. пакет

521AL0001111 2 pcs. pack / 2 бр. пакет

Straight connector disposable 2PIN for LED strip SMD2835/COB 4.5A 10mm IP20

Прав конектор за еднократна употреба 2PIN за LED лента SMD2835/COB 4.5A 10mm IP20

521AL0001125 10 pcs. pack / 10 бр. пакет

521AL0001126 2 pcs. pack / 2 бр. пакет

Connector 4in1 disposable 2PIN for LED strip SMD/COB 8mm IP20

Конектор 4в1 за еднократна употреба 2PIN за LED лента SMD/COB 8mm IP20

521AL0001180 10 pcs. pack / 10 бр. пакет

521AL0001181 2 pcs. pack / 2 бр. пакет

Connector 4in1 disposable 2PIN for LED strip SMD/COB 10mm IP20

Конектор 4в1 за еднократна употреба 2PIN за LED лента SMD/COB 10mm IP20

521AL0001185 10 pcs. pack / 10 бр. пакет

521AL0001186 2 pcs. pack / 2 бр. пакет

Angle connector disposable 2PIN for LED strip COB 5A 10mm IP20

Ъглов конектор за еднократна употреба 2PIN за LED лента COB 5A 10mm IP20

521AL0001120 10 pcs. pack / 10 бр. пакет

521AL0001121 2 pcs. pack / 2 бр. пакет

Straight connector disposable 4PIN for RGB LED strip 10mm IP20

Прав конектор за еднократна употреба 4PIN за RGB LED лента 10mm IP20

521AL0001127 10 pcs. pack / 10 бр. пакет

521AL0001128 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm disposable 2PIN for single-color LED strip
SMD2835 4A 8mm IP20

Конектор с кабел 15cm за еднократна употреба 2PIN за едноцветна LED лента SMD2835 4A 8mm IP20

521AL0001130 10 pcs. pack / 10 бр. пакет

521AL0001131 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm disposable 3PIN for LED strip CCT 168 LEDs/m 6A 8mm IP20

Конектор с кабел 15cm за еднократна употреба 3PIN за LED лента CCT 168 LEDs/m 6A 8mm IP20

521AL0001135 10 pcs. pack / 10 бр. пакет

521AL0001136 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm disposable 3PIN for LED strip CCT 168 LEDs/m 6A 10mm IP20

Конектор с кабел 15cm за еднократна употреба 3PIN за LED лента CCT 168 LEDs/m 6A 10mm IP20

521AL0001140 10 pcs. pack / 10 бр. пакет

521AL0001141 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm disposable 4PIN for LED strip RGB 4A 10mm IP20

Конектор с кабел 15cm за еднократна употреба 4PIN за LED лента RGB 4A 10mm IP20

521AL0001145 10 pcs. pack / 10 бр. пакет

521AL0001146 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm disposable 5PIN for LED strip RGBW 4A 12mm IP20

Конектор с кабел 15cm за еднократна употреба 5PIN за LED лента RGBW 4A 12mm IP20

521AL0001150 10 pcs. pack / 10 бр. пакет

521AL0001151 2 pcs. pack / 2 бр. пакет

Flexible connector with cable 15cm disposable 2PIN for single-color LED strip 4A 8mm IP20

Гъвкав конектор с кабел 15cm за еднократна употреба 2PIN за едноцветна LED лента 4A 8mm IP20

521AL0001155 10 pcs. pack / 10 бр. пакет

521AL0001156 2 pcs. pack / 2 бр. пакет

Flexible connector with cable 15cm disposable 3PIN for LED strip CCT 168 LEDs/m 6A 8mm IP20

Гъвкав конектор с кабел 15cm за еднократна употреба 3PIN за LED лента CCT 168 LEDs/m 6A 8mm IP20

521AL0001160 10 pcs. pack / 10 бр. пакет

521AL0001161 2 pcs. pack / 2 бр. пакет

Flexible connector with cable 15cm disposable 3PIN for LED strip
CCT 168 LEDs/m 6A 10mm IP20

Гъвкав конектор с кабел 15cm за еднократна употреба 3PIN за
LED лента CCT 168 LEDs/m 6A 10mm IP20

521AL0001165 10 pcs. pack / 10 бр. пакет

521AL0001166 2 pcs. pack / 2 бр. пакет

Flexible connector with cable 15cm disposable 4PIN for LED strip RGB 4A 10mm IP20

Гъвкав конектор с кабел 15cm за еднократна употреба 4PIN за LED лента RGB 4A 10mm IP20

521AL0001170 10 pcs. pack / 10 бр. пакет

521AL0001171 2 pcs. pack / 2 бр. пакет

Flexible connector with cable 15cm disposable 5PIN for LED strip RGBW 4A 12mm IP20

Гъвкав конектор с кабел 15cm за еднократна употреба 5PIN за LED лента RGBW 4A 12mm IP20

521AL0001175 10 pcs. pack / 10 бр. пакет

521AL0001176 2 pcs. pack / 2 бр. пакет

Reusable straight connector reusable 2PIN for LED single-color strip 8mm
Прав конектор за многократна употреба 2PIN за едноцветна LED лента 8mm

521AL0001340 10 pcs. pack / 10 бр. пакет

521AL0001341 2 pcs. pack / 2 бр. пакет

Reusable straight connector 3PIN for LED strip CCT 8mm
Прав конектор за многократна употреба 3PIN за LED лента CCT 8mm

521AL0001345 10 pcs. pack / 10 бр. пакет

521AL0001346 2 pcs. pack / 2 бр. пакет

Reusable straight connector 3PIN for LED strip CCT 10mm
Прав конектор за многократна употреба 3PIN за LED лента CCT 10mm

521AL0001350 10 pcs. pack / 10 бр. пакет

521AL0001351 2 pcs. pack / 2 бр. пакет

Reusable straight connector 4PIN for LEDstrip RGB 10mm
Прав конектор за многократна употреба 4PIN за LED лента RGB 10mm

521AL0001355 10 pcs. pack / 10 бр. пакет

521AL0001356 2 pcs. pack / 2 бр. пакет

Reusable straight connector 5PIN for LED strip RGBW 12mm
Прав конектор за многократна употреба 5PIN за LED лента RGBW 12mm

521AL0001360 10 pcs. pack / 10 бр. пакет

521AL0001361 2 pcs. pack / 2 бр. пакет

Прав конектор за многократна употреба 2PIN за LED лента COB 8mm
Reusable straight connector 2PIN for LED strip COB 8mm

521AL0001365 10 pcs. pack / 10 бр. пакет

521AL0001366 2 pcs. pack / 2 бр. пакет

Reusable straight connector 2PIN for LED strip COB 10mm
Прав конектор за многократна употреба 2PIN за LED лента COB 10mm

521AL0001370 10 pcs. pack / 10 бр. пакет

521AL0001371 2 pcs. pack / 2 бр. пакет

Supply connector reusable 2PIN for single-color LED strip 8mm IP20
Захранващ конектор за многократна употреба 2PIN за едноцветна LED лента 8mm IP20

521AL0001200 10 pcs. pack / 10 бр. пакет

521AL0001201 2 pcs. pack / 2 бр. пакет

Supply connector reusable 3PIN for LED strip CCT 8mm IP20
Захранващ конектор за многократна употреба 3PIN за LED лента CCT 8mm IP20

521AL0001205 10 pcs. pack / 10 бр. пакет

521AL0001206 2 pcs. pack / 2 бр. пакет

Supply connector reusable 3PIN for LED strip CCT 10mm IP20
Захранващ конектор за многократна употреба 3PIN за LED лента CCT 10mm IP20

521AL0001210 10 pcs. pack / 10 бр. пакет

521AL0001211 2 pcs. pack / 2 бр. пакет

Supply connector reusable 4PIN for LED strip RGB 10mm IP20
Захранващ конектор за многократна употреба 4PIN за LED лента RGB 10mm IP20

521AL0001215 10 pcs. pack / 10 бр. пакет

521AL0001216 2 pcs. pack / 2 бр. пакет

Supply connector reusable 5PIN for LED strip RGBW 12mm IP20
Захранващ конектор за многократна употреба 5PIN за LED лента RGBW 12mm IP20

521AL0001220 10 pcs. pack / 10 бр. пакет

521AL0001221 2 pcs. pack / 2 бр. пакет

Захранващ конектор за многократна употреба 2PIN за LED лента COB 8mm IP20

521AL0001225 10 pcs. pack / 10 бр. пакет

521AL0001226 2 pcs. pack / 2 бр. пакет

Supply connector reusable 2PIN for LED strip COB 10mm IP20
Захранващ конектор за многократна употреба 2PIN за LED лента COB 10mm IP20

521AL0001230 10 pcs. pack / 10 бр. пакет

521AL0001231 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 2PIN for single-color LED strip 8mm IP20

Конектор със захранващ кабел 10cm за многократна употреба 2PIN за едноцветна LED лента 8mm

521AL0001235 10 pcs. pack / 10 бр. пакет

521AL0001236 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 3PIN for LED strip CCT 8mm

Конектор със захранващ кабел 10cm за многократна употреба 3PIN за LED лента CCT 8mm

521AL0001240 10 pcs. pack / 10 бр. пакет

521AL0001241 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 3PIN for LED strip CCT 10mm

Конектор със захранващ кабел 10cm за многократна употреба 3PIN за LED лента CCT 10mm

521AL0001245 10 pcs. pack / 10 бр. пакет

521AL0001246 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 4PIN for LED strip RGB 10mm

Конектор със захранващ кабел 10cm за многократна употреба 4PIN за LED лента RGB 10mm

521AL0001250 10 pcs. pack / 10 бр. пакет

521AL0001251 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 5PIN for LED strip RGBW 12mm

Конектор със захранващ кабел 10cm за многократна употреба 5PIN за LED лента RGBW 12mm

521AL0001255 10 pcs. pack / 10 бр. пакет

521AL0001256 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 2PIN for LED strip COB 8mm

Конектор със захранващ кабел 10cm за многократна употреба 2PIN за LED лента COB 8mm

521AL0001260 10 pcs. pack / 10 бр. пакет

521AL0001261 2 pcs. pack / 2 бр. пакет

Connector with supply cable 10cm reusable 2PIN for LED strip COB 10mm

Конектор със захранващ кабел 10cm за многократна употреба 2PIN за LED лента COB 10mm

521AL0001265 10 pcs. pack / 10 бр. пакет

521AL0001266 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 2PIN for single-color LED strip 8mm
Гъвкав конектор с кабел 10cm за многократна употреба 2PIN за едноцветна LED лента 8mm

521AL0001270 10 pcs. pack / 10 бр. пакет

521AL0001271 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 3PIN for LED strip CCT 8mm
Гъвкав конектор с кабел 10cm за многократна употреба 3PIN за LED лента CCT 8mm

521AL0001275 10 pcs. pack / 10 бр. пакет

521AL0001276 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 3PIN for LED strip CCT 10mm
Гъвкав конектор с кабел 10cm за многократна употреба 3PIN за LED лента CCT 10mm

521AL0001280 10 pcs. pack / 10 бр. пакет

521AL0001281 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 4PIN for LED strip RGB 10mm
Гъвкав конектор с кабел 10cm за многократна употреба 4PIN за LED лента RGB 10mm

521AL0001285 10 pcs. pack / 10 бр. пакет

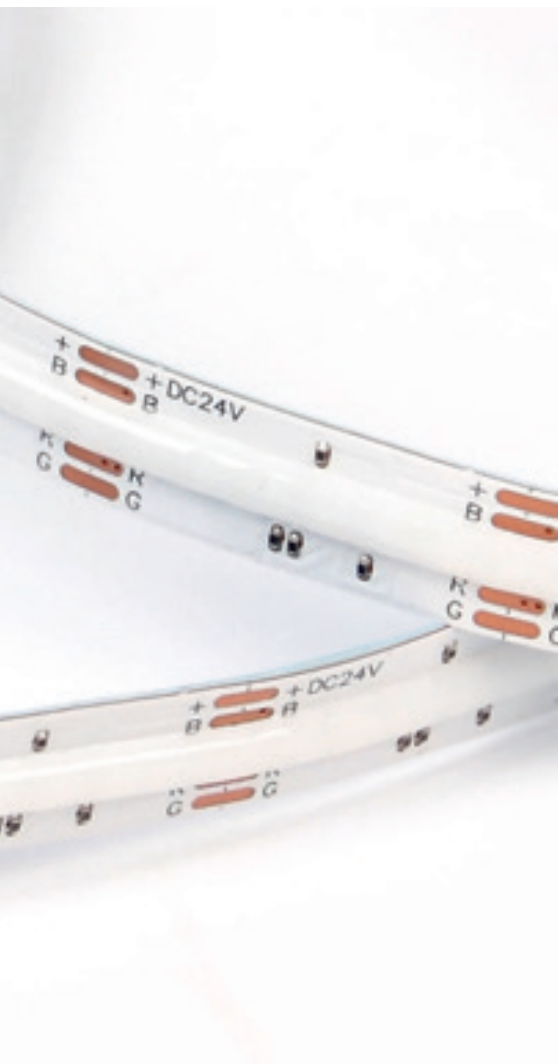

521AL0001286 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 5PIN for LED strip RGBW 12mm
Гъвкав конектор с кабел 10cm за многократна употреба 5PIN за LED лента RGBW 12mm

521AL0001290 10 pcs. pack / 10 бр. пакет

521AL0001291 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 2PIN for LED strip COB 8mm

Гъвкав конектор с кабел 10cm за многократна употреба 2PIN за LED лента COB 8mm

521AL0001295 10 pcs. pack / 10 бр. пакет **521AL0001296** 2 pcs. pack / 2 бр. пакет

Flexible connector cable 10cm reusable 2PIN for LED strip COB 10mm

Гъвкав конектор с кабел 10cm за многократна употреба 2PIN за LED лента COB 10mm

521AL0001300 10 pcs. pack / 10 бр. пакет **521AL0001301** 2 pcs. pack / 2 бр. пакет

Supply connector with female terminal for LED strip SMD3528 8mm

Захранващ конектор с букса за LED Лента SMD3528 8mm

521AL0001272 10 pcs. pack / 10 бр. пакет **521AL0001273** 2 pcs. pack / 2 бр. пакет

Supply connector with male terminal for single-color LED strip

Захранващ конектор с букса (мъжка) за едноцветна LED лента

521AL0001277 10 pcs. pack / 10 бр. пакет **521AL0001278** 2 pcs. pack / 2 бр. пакет

Connector reusable with supply cable with socket 2PIN for LED single-color strip 8mm

Конектор за многократна употреба със захранващ кабел с букса 2PIN за едноцветна LED лента 8mm

521AL0001305 10 pcs. pack / 10 бр. пакет **521AL0001306** 2 pcs. pack / 2 бр. пакет

Power cable connector reusable with pin connector 3PIN for LED strip CCT 8mm

Конектор за многократна употреба със захранващ кабел с иглен конектор 3PIN за LED лента CCT 8mm

521AL0001310 10 pcs. pack / 10 бр. пакет **521AL0001311** 2 pcs. pack / 2 бр. пакет

Power cable connector reusable with pin connector 3PIN for LED strip CCT 10mm
Конектор за многократна употреба със захранващ кабел с иглен конектор 3PIN за LED лента CCT 10mm

521AL0001315 10 pcs. pack / 10 бр. пакет

521AL0001316 2 pcs. pack / 2 бр. пакет

Power cable connector reusable with female socket 4PIN for LED strip RGB 10mm
Конектор за многократна употреба със захранващ кабел с женска букса 4PIN за LED лента RGB 10mm

521AL0001320 10 pcs. pack / 10 бр. пакет

521AL0001321 2 pcs. pack / 2 бр. пакет

Power cable connector reusable with pin connector 5PIN for LED strip RGBW 12mm
Конектор за многократна употреба със захранващ кабел с иглен конектор 5PIN за LED лента RGBW 12mm

521AL0001325 10 pcs. pack / 10 бр. пакет

521AL0001326 2 pcs. pack / 2 бр. пакет

Connector reusable with power cable with click socket 2PIN for LED strip COB 8mm
Конектор за многократна употреба със захранващ кабел с клик букса 2PIN за LED лента COB 8mm

521AL0001330 10 pcs. pack / 10 бр. пакет

521AL0001331 2 pcs. pack / 2 бр. пакет

Connector reusable with power cable with click socket 2PIN for LED strip COB 10mm
Конектор за многократна употреба със захранващ кабел с клик букса 2PIN за LED лента COB 10mm

521AL0001335 10 pcs. pack / 10 бр. пакет

521AL0001336 2 pcs. pack / 2 бр. пакет

Reusable straight connector 2PIN for LED waterproof single-color strip SMD/COB 6A 8mm

Прав конектор 2PIN за водоустойчива едноцветна LED лента SMD/COB 6A 8mm

521AL0001375 10 pcs. pack / 10 бр. пакет

521AL0001376 2 pcs. pack / 2 бр. пакет

Reusable straight connector 3PIN for LED waterproof strip CCT 6A 8mm

Прав конектор 3PIN за водоустойчива LED лента CCT 6A 8mm

521AL0001380 10 pcs. pack / 10 бр. пакет

521AL0001381 2 pcs. pack / 2 бр. пакет

Reusable straight connector 3PIN for LED waterproof strip CCT 6A 10mm

Прав конектор 3PIN за водоустойчива LED лента CCT 6A 10mm

521AL0001385 10 pcs. pack / 10 бр. пакет

521AL0001386 2 pcs. pack / 2 бр. пакет

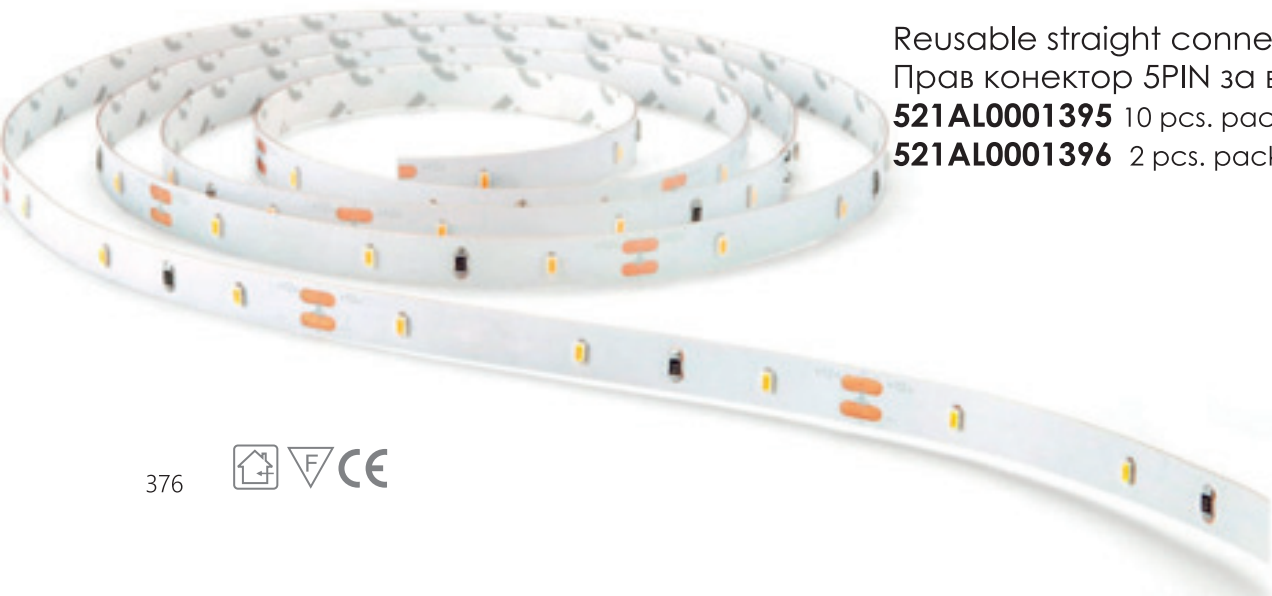

Reusable straight connector 4PIN for LED waterproof strip RGB 6A 10mm

Прав конектор 4PIN за водоустойчива LED лента RGB 6A 10mm

521AL0001390 10 pcs. pack / 10 бр. пакет

521AL0001391 2 pcs. pack / 2 бр. пакет

Reusable straight connector 5PIN for LED waterproof strip RGBW 6A 12mm

Прав конектор 5PIN за водоустойчива LED лента RGBW 6A 12mm

521AL0001395 10 pcs. pack / 10 бр. пакет

521AL0001396 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm 2PIN for LED waterproof single-color strip SMD/COB 6A 8mm
Конектор с кабел 15cm 2PIN за водоустойчива едноцветна LED лента SMD/COB 6A 8mm

521AL0001400 10 pcs. pack / 10 бр. пакет

521AL0001401 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm 3PIN for LED waterproof strip CCT 6A 8mm
Конектор с кабел 15cm 3PIN за водоустойчива LED лента CCT 6A 8mm

521AL0001405 10 pcs. pack / 10 бр. пакет

521AL0001406 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm 3PIN for LED waterproof strip CCT 6A 10mm
Конектор с кабел 15cm 3PIN за водоустойчива LED лента CCT 6A 10mm

521AL0001410 10 pcs. pack / 10 бр. пакет

521AL0001411 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm 4PIN for LED waterproof strip RGB 6A 10mm
Конектор с кабел 15cm 4PIN за водоустойчива LED лента RGB 6A 10mm

521AL0001415 10 pcs. pack / 10 бр. пакет

521AL0001416 2 pcs. pack / 2 бр. пакет

Connector with cable 15cm 5PIN for LED waterproof strip RGBW 6A 12mm
Конектор с кабел 15cm 5PIN за водоустойчива LED лента RGBW 6A 12mm

521AL0001420 10 pcs. pack / 10 бр. пакет

521AL0001421 2 pcs. pack / 2 бр. пакет

— ACCESSORIES FOR LED STRIPS —

Mounting bracket for LED strip 12mm IP20
Монтажна скоба за LED лента 12mm IP20

521AL0001900 10 pcs. pack / 10 бр. пакет

521AL0001901 2 pcs. pack / 2 бр. пакет

Mounting bracket for LED strip 10mm IP20
Монтажна скоба за LED лента 10mm IP20

521AL0001905 10 pcs. pack / 10 бр. пакет

521AL0001906 2 pcs. pack / 2 бр. пакет

Mounting bracket for LED strip 8mm IP20
Монтажна скоба за LED лента 8mm IP20

USEFUL INFORMATION / ПОЛЕЗНА ИНФОРМАЦИЯ

GENERAL ADVANTAGES.

LOW CONSUMPTION - Extremely low levels of energy consumption. Modern LED lamps consume from 8 to 10 times lower energy compared to conventional light sources, yet LEDs provide as much or more light compared to their predecessors. **LONG LIFE** - LEDs have life span of 50 000 hours. After this period the LEDs continue to work but at lower intensity. **HIGH RELIABILITY** - The exceptional reliability of the LEDs comes from their long technical life. They are the most reliable type of light source. **ECOLOGICAL** - LEDs contain no harmful to the humans elements unlike sodium, mercury and fluorescent lamps. LEDs are completely recyclable and do not have any harmful emissions (ultraviolet or infrared radiations which can damage the eyes or the surrounding objects). They levels of heat they emit are insignificant. They do not have glass cover.

ADVANTAGEOUS IN ENERGY EFFICIENCY.

LEDs HAVE MUCH HIGHER EFFICIENCY - more than 0.9 compared to 0.1 for incandescent lamps. Essentially this means that LED transform 90% from the consumed energy into light and have only 10% energy loss. **HIGH LUMINOUS FLUX** - LEDs have exceptional efficiency in terms of transforming energy into luminous flux. The used measure is lumens per watt (lm/W). For example a 100W sodium lamp provides 30 lm/W, when nowadays LED lamps can provide 200lm/W модел STAR LIGHTEX. **LOW COST** - LED lamps decrease the power consumption for the individual users but in this way the consumption is decreased on regional and national level.

PRACTICAL ADVANTAGES.

NO MAINTENANCE REQUIRED Throughout the whole technical life of the LEDs they require no maintenance! **SAFETY** - The LEDs work in systems powered with low voltage that are completely safe for the human. **MECHANICAL RESISTANCE** - LEDs are resistant to vibrations and hits. **NO OPTICS / REFLECTORS NEEDED** - The body structure of the LEDs allows equal distribution of light in all directions. No optics or complex mirror-lens constructions are required. **AUTONOMOUS WORK** - Due to the low levels of power consumption of the LEDs and the low voltage at which they operate they can work autonomously by using solar systems and therefore be used for the illumination of areas in which no electrical grid is installed.

ОСНОВНИ ПРЕДИМСТВА.

НИСКА КОНСУМАЦИЯ - Изключително ниска консумирана енергия. Съвременните светодиодни лампи изразходват около 8 до 10 пъти по-малко енергия в сравнение с традиционните, но имат еквивалентен произвеждан светлинен поток. **ДЪЛЪГ ЖИВОТ** - Притежават технически живот 50 000 часа. След този срок светодиодът продължава да свети, но с по-нисък интензитет. **ВИСОКА НАДЕЖДНОСТ** - Изключително високата надеждност произтича от дългия технически живот. Светодиодите са най-надеждният източник на светлина. **ЕКОЛОГИЧНА ЧИСТОТА** - Светодиодите не съдържат в себе си опасни за човека елементи (за разлика например от живачните, натриевите и конвенционалните луминесцентни лампи). Те са напълно рециклируеми. Не излъчват никакви вредни емисии (липса на ултравиолетова и инфрачервена радиации, които са вредни за зрението и за околните предмети). Отделят пренебрежима топлина. Нямаат стъклен корпус.

ЕНЕРГИЙНО - ЕФЕКТИВНИ ПРЕДИМСТВА.

ВИСОК КПД - Светодиодите притежават много висок коефициент на полезно действие (КПД) - над 0.9 (срещу 0.1 при лампите с нажежаема жичка). Практически това означава превръщане на 90% от консумираната енергия в светлина и само 10% в загуби.

ВИСОКО СВЕТООТДАВАНЕ - Светодиодите притежават изключителна ефективност на преобразуване на електрическата енергия в светлинен поток (светоотдаване). Измерва се в лумени на ват (lm/W). За сравнение при 100 W натриева лампа 30 lm/W, при еквивалентната LED лампа - 200lm/W модел STAR LIGHTEX. **НИСКИ РАЗХОДИ** - LED - лампите намаляват разходите в пъти в персонален, обществен, национален и световен план.

ПРАКТИЧЕСКИ ПРЕДИМСТВА.

БЕЗ ПОДДРЪЖКА - За целия си технически живот светодиодите не се нуждаят от поддръжка и сервиз. **БЕЗОПАСНОСТ** - Светодиодите работят в електрически и електронни системи при ниски захранващи напрежения напълно безопасни за човека. **МЕХАНИЧНА УСТОЙЧИВОСТ** - Светодиодите са устойчиви на вибрации и удари. **БЕЗ ОПТИКА / РЕФЛЕКТОРИ** - Различните изпълнения на корпуса на светодиода позволяват получаването на произволно разпределение на светлинния поток в пространството: равномерно във всички посоки или тесен светлинен сноп. За разлика от известните осветителни тела не използват външна оптика и сложни огледално-лещови и рефлекторни конструкции (в които има светлинни загуби). **АВТОНОМНА РАБОТА** - Поради изключително ниските си нива на консумация и малките си работни напрежения осветителните LED - тела могат да се захранват от слънчеви панели, с което се пести електроенергия. Чрез такива соларни системи е възможно дори осветяването на места, където няма електрическа захранваща мрежа.

LIGHT AND COLOUR CHARACTERISTICS OF LIGHT SOURCES

Luminous flux (lm) is the amount of visible light energy emitted in 1 second from a point source. The higher the indicated luminous flux for a lamp, the stronger the visible light it produces. A traditional 100W incandescent lamp has a luminous flux of 1000-1100 lm.

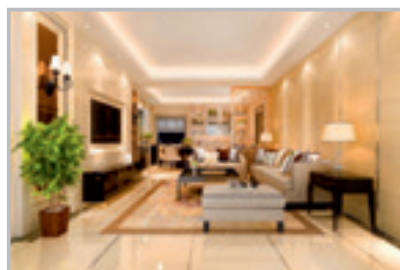

Color temperature (K) is a parameter describing the color of a visible light source by comparing it to the color of light emitted by an idealized opaque, non-reflective body.

СВЕТЛИННИ И ЦВЕТОВИ ХАРАКТЕРИСТИКИ НА СВЕТЛИННИТЕ ИЗТОЧНИЦИ

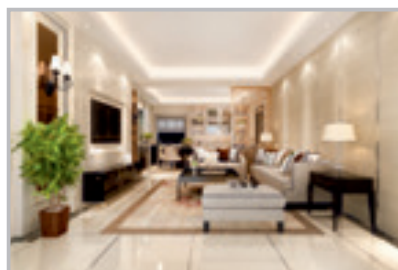

Светлинен поток (lm) е количеството видима светлинна енергия, излъчено за 1 секунда от точков източник. Колкото е по-висок посоченият светлинен поток за дадена лампа, толкова по-силна видима светлина тя произвежда. Една традиционна лампа с нажежаема жичка 100W има светлинен поток 1000-1100 lm.

Цветовата температура (K) - градуси по Келвин.

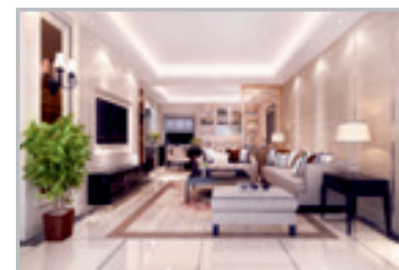

Количествена мярка за преобладаващия цвят на светлината, излъчвана от светлинен източник и наблюдавана с човешко око или от сензора на специализиран измервателен уред. Не трябва да се бърка цветът на светлината с нейната яркост. Светлината с цветова температура до 2700K-3000K често се нарича „топла“, а тази над 5000K - „студена“.

2700K - 3300K
Warm white light / Топла бяла светлина

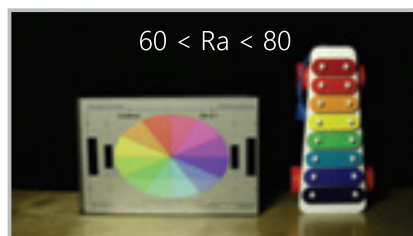

4000K - 5000K
Neutral white light / Нейтрална бяла светлина

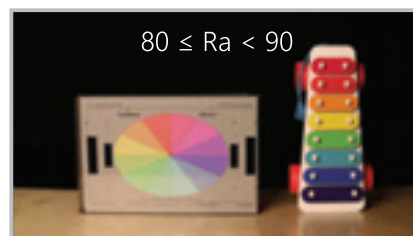

5500K - 6500K
Cool white light / Студена бяла светлина

Color Rendering Index CRI (Ra)

Индексът за цвето предаване CRI (Ra) представя количествено способността на светлинния източник да разкрие действителните цветове на осветявания от него обект в сравнение с осветяването му от естествена дневна светлина. Индексът е число между 0 и 100. Колкото е по-висок CRI (Ra) на дадена лампа, толкова по-вярно тя разкрива цветовете на осветяваните обекти.

Satisfactory colors reproduction / Задоволително възпроизвеждане на цветовете

Good colors reproduction / Добро възпроизвеждане на цветовете

Excellent colors reproduction / Отлично възпроизвеждане на цветовете

TEHNICAL SPECIFICATION - SYMBOLS AND DATA

Технически спецификации - символи и данни

-  **Ingress protection of lighting fixtures.** / Символ, указващ степента на защита срещу проникване на влага и прах. IP означава вида на защита (Ingress Protection = Защита срещу проникване). Двете цифри показват съответно степента на защита срещу проникване на прах (например 6 = недопускане и на много ситен прах) и влага/вода (например 5 = недопускане на влага/вода и при пряко пръскане с маркуч).
-  **Dimmable.** / Лампата в осветителното тяло позволява регулиране на силата на светене - от максимум до минимум и обратно, с помощта на допълнителен регулатор (често наричан „димер“ - от dimmer - „затъмнител“). Тази способност на лампата често у нас се нарича „Димира се“.
-  **Not dimmable.** / Лампата в осветителното тяло не позволява регулиране на силата на светене - тя може да свети само с предвидената си интензивност. Тази характеристика на лампата често у нас се описва с „Не се димира“.
-  **In lighting fixtures of I class protection against electric shock is given not only by basic insulation but also by additional measures. A fault in the lighting fixture which causes a live conductor to contact the casing will cause a current flow in the earth conductor.** / Осветителното тяло е с I-ви клас на защита срещу поражение от електрически ток. Това означава, че всички метални части от корпуса на осветителното тяло трябва задължително да бъдат електрически свързани към заземителния (жълто-зелен проводник) на мрежовия захранващ кабел за осветителното тяло. Този проводник на свой ред трябва да е електрически свързан със заземителните клеми на щепсела или заземителния проводник на инсталацията. Така при аварийен пробив на изолацията на тоководещата част към металната част на корпуса ще се получи късо съединение и изключване на мрежовия предпазител. При това заземената част на корпуса е безопасна за хората, тъй като е с нулев потенциал (т.е. липсва опасно напрежение). Клемата за свързване на заземителния проводник е означена със същия знак.
-  **In the group of lighting fixtures of II class are included products where protection is ensured not only by using basic insulation, but also by other measures such as double insulation level or reinforced insulation. The fixture has no earth conductor.** / Осветителното тяло е с II-ри клас на защита срещу поражение от електрически ток. Това означава, че всички тоководещи части са с двойна или усилена изолация. Тялото няма заземителна клема. Заземяване на металните части от корпуса не е необходимо.
-  **Exterior light fixtures.** / Осветителното тяло е за работа основно на открито.
-  **Interior light fixtures.** / Осветителното тяло е за работа основно на закрито.
-  **Exterior and Interior light fixtures.** / Осветителното тяло е за работа основно на открито и закрито.
-  **Beam angle.** / Ъгъл на светене.
-  **Instant start 100 % <1sec.** / Мигновен старт 100 % <1sec.

IK Protection Ratings is a number from 00 to 10 that indicates the degree of protection provided by electrical housings against external mechanical influences. IK Protection Ratings е число от 00 до 10, което показва степента на защита, осигурена от електрическите корпуси срещу външни механични въздействия.

Color rendering index. / Индекс на цвето предаване.

Power factor. / Фактор на мощността.

Commercial guarantee is valid since the date of the purchase of the product and only when a document proving the sale is provided. Търговска гаранция, влиза в сила от датата на закупуване на съответния продукт и е валидна само при предоставяне на документ за извършена продажба.

Lighting fixture can be mounted directly on the surfaces from the second category (normally burning materials). The product can also be mounted on not flammable surfaces. Знакът F означава, че осветителното тяло може да се монтира пряко върху нормално запалими материали с температура на запалване над 200° C (например естествено дърво). Разбира се, осветителното тяло може да се монтира и на незапалими повърхности.

The CE marking is a mandatory European marking for certain product groups to indicate conformity with the essential health and safety requirements set out in European Directives.

CE маркировката е знак за съответствие, който след 1993 г. се поставя върху определени технически продукти, предназначени за европейския пазар. Чрез този знак производителят декларира, че продуктът отговаря на комплекта от изисквания по отношение на опазването на здравето и безопасността на потребителите, заложи в съответните директиви на Европейския съюз. Всеки производител (независимо дали е член на ЕС) е задължен да изпълни изискванията и след положителна оценка за съответствие на продукта, да постави такава маркировка.
